**Aims and objectives of this session**

The European School of Urology (ESU) and the EAU Robotic Urology Section (ERUS) offer an intensive Hands-on Training course. We will provide training using simulators. The main aims of this 90 minutes course are:

- improving the participants' control-skills and hand-eye-coordination, as well as an objective benchmarking of console performance and an introduction into standardized surgical steps in robot-assisted procedures.

**Aims and objectives**

Improve your robotic surgery skills in the following areas:

- Endowrist manipulation
- Camera Control
- 3rd Arm Control
- Needle Placement and Driving
- Suturing and Knot Tying

A. E. Canda, Ankara (TR)
