**Men's sexual health: Focus on ED, LiSWT and testosterone replacement therapy**

**Location:** Room 7, Capital suite (level 3)

**Chairs:**
- A. Salonia, Milan (IT)
- E.C. Serefoglu, Ankara (TR)
- R. Tal, Haifa (IL)

**Aims and objectives of this session**
This session will provide the audience with the most recent clinical evidence from short-term randomized trials regarding low-intensity shockwave therapy (LiSWT) for erectile dysfunction. Additionally, the session will focus on testosterone replacement therapy.

Poster viewing of 20 minutes. Presentations will take place on stage. Standard presentations are 2 minutes in length, followed by 2 minutes for discussion. Extended presentations (*) are 3 minutes in length, followed by 3 minutes for discussion.
