Survivorship in prostate cancer: "It's all about patients"

Location: Room Milan, North Hall (Level 1)

Chairs: R. Kirby, London (GB)
        S. MacLennan, Aberdeen (GB)
        B. Tombal, Brussels (BE)

Aims and objectives of this session
To assess the patient's perspective and expectation during treatment and follow-up.

Poster viewing of 20 minutes. Presentations will take place on stage. Standard presentations are 2 minutes in length, followed by 2 minutes for discussion. Extended presentations (*) are 3 minutes in length, followed by 3 minutes for discussion.

938 Prostate cancer-specific anxiety in long-term survivors after radical prostatectomy
By: Meissner V H., Dinkel A., Marten-Mittag B., Gschwend J., Herkommer K.
Institutes: Klinikum Rechts Der Isar, Technical University of Munich, Dept. of Urology, Munich, Germany; Klinikum Rechts Der Isar, Technical University of Munich, Dept. of Psychosomatic Medicine and Psychotherapy, Munich, Germany

939 Patients’ perspectives on the risks of localized prostate cancer treatments prior to making the treatment decision
By: Van Stam M-A., Van Der Poel H., Aaronson N., Horenblas S., Tillier C., Bosch J.
Institutes: University Medical Center Utrecht, Dept. of Urology, Utrecht, The Netherlands; NKI-AVL, Divison of Psychosocial Research & Epidemiology, Amsterdam, The Netherlands; Umc Utrecht, Dept. of Urology, Utrecht, The Netherlands

940 Elderly prostate cancer patients in the Netherlands have a worse prognosis than younger patients: A population-based study
By: Vernooij R., Van Oort I., De Reijke T., Aben K.
Institutes: Netherlands Comprehensive Cancer Organisation, Dept. of Research, Utrecht, The Netherlands; Radboud University Medical Centre, Dept. of Urology, Nijmegen, The Netherlands; Academic Medical Centre, Dept. of Urology, Amsterdam, The Netherlands

941 A multimodal supportive care intervention in men and their partners/carers affected by metastatic prostate cancer: A randomised controlled feasibility study
By: Paterson C., Primeau C., Nabi G.
Institutes: Ninewells Hospital, Dept. of Urology, Dundee, United Kingdom

942 Perioperative patient education improves long-term satisfaction rates of low-risk prostate cancer patients after radical prostatectomy
Institutes: LMU-Klinikum der Universität München, Dept. of Urology, Munich, Germany

943 Impact of the perception of relationship cohesion (dyadic adjustment) on the quality of life (QoL) of patients with prostate cancer (PCa) receiving gonadotropin-releasing hormone (GnRH) agonist therapy
By: Droupy S., Pello-Leprince-Ringuet N., Perrot V., Descazeaud A.
Institutes: Chu Carémeau, Dept. of Urology Andrology, Nimes, France; Ipsen Pharma, Dept. of Urology, Boulogne-Billancourt, France; University Hospital, Dept. of Urology, Limoges, France
Impact of implementing a goal directed holistic needs clinic on quality of life after robotic radical prostatectomy

By: Calleja E., Ferguson J., Aning J.

Institutes: Freeman Hospital, Dept. of Urology, Newcastle upon Tyne, United Kingdom

Why has he changed so much? Exploring cognitive impairments in prostate cancer survivors on ADT using virtual reality testing

By: Green J.1, Mills R.2, Holland A.3, Davies M.4, Edginton T.4, Jansari A.5

Institutes: Whipps Cross University Hospital, Dept. of Urology, London, United Kingdom, UEL, Dept. of Psychology, London, United Kingdom, Goldsmiths, Dept. of Psychology, London, United Kingdom, University of Westminster, Dept. of Psychology, London, United Kingdom, Goldsmith, Dept. of Psychology, London, United Kingdom

Psychosocial interventions to improve the quality of life for men with prostate cancer: A Bayesian network meta-analysis of 31 randomised controlled trials

By: Shi Q., Xiang T., Liangren L., Zhenhua L., Lu Y., Qiang W.

Institutes: West China Hospital - Sichuan University, Dept. of Urology, Chengdu, China

Safety and benefits of group based exercise in daily clinical practice for men with prostate cancer undergoing androgen deprivation therapy

By: Ostergren P.B.1, Ragle A-M.2, Jakobsen H.1, Klausen T.W.3, Vinther A.2, Sønksen J.1

Institutes: Herlev and Gentofte University Hospital, Dept. of Urology, Herlev, Denmark, Herlev and Gentofte University Hospital, Dept. of Rehabilitation, Herlev, Denmark, Herlev and Gentofte University Hospital, Dept. of Haematology, Herlev, Denmark

How do changes in erectile functioning affect self-esteem in older men with localized prostate cancer?

By: Hilger C., Burkert S., Kendel F.

Institutes: Charité - Universitätsmedizin Berlin, Dept. of Medical Psychology, Berlin, Germany

Estimation of outcomes of artificial urinary sphincter implantation - a multicenter prospective observational study

By: Kaiho Y.1, Masuda H.2, Takei M.3, Hirayama T.4, Mitsui T.5, Yokoyama M.2, Kawamorita N.1, Nakagawa H.1, Iwamura M.4, Shinohara N.5, Arai Y.1

Institutes: Tohoku University Graduate School of Medicine, Dept. of Urology, Sendai, Japan, Tokyo Medical and Dental University, Dept. of Urology, Tokyo, Japan, Harasanshin Hospital, Dept. of Urology, Fukuoka, Japan, Kitasato University School of Medicine, Dept. of Urology, Kanagawa, Japan, Hokkaido University Graduate School of Medicine, Dept. of Renal and Genitourinary Surgery, Sapporo, Japan

Personal perspective

R. Kirby, London (GB)
