Aims and objectives of this session
This session will be divided into two parts. During the first part, we will see several communications concerning fusion biopsies, through different methods. Then, we will go further with videos concerning focal treatment of prostate cancer. In the second part will show the videos and reward the authors for the 3 best videos presented during the congress. Don't miss these amazing video communications that will be exclusively presented during this award session.

All presentations have a maximum length of 8 minutes, followed by 4 minutes of discussion.
