

Overcoming obstacles in medical management of BPH patients

Industry session by GSK

Sunday, 26 March
17:45 - 19:15

Location: Room Berlin, North Hall (Level 1)

Chair: M.A. Averbeck, Porto Alegre (BR)

Aims and objectives of this session

This symposium will highlight the importance of understanding patients and physicians attitudes towards BPH presenting as well the latest clinical evidence on how BPH medical treatments impact on men's sexual function. Lively and stimulating debate, where clinical experience is shared alongside the latest evidenced based medicine, will ensure delegates maximize their learning applicable to their daily practice.

17:45 - 17:55
