

## Advanced reconstructive surgery

Video Session 11

Monday, 27 March  
15:45 - 17:15

**Location:** eURO Auditorium (Level 0)

**Chairs:** V. Ferrara, Marche (IT)  
C. Imbimbo, Naples (IT)  
F. Van Der Aa, Leuven (BE)

### Aims and objectives of this session

Reconstructive surgery is one of the most complex surgeries. Every case is a real challenge because it is not always easy to predict clinical situations. Often there isn't a standard technique and the surgeon must combine various techniques, as we shall see in this video session which brings us an up-to-date on the latest knowledge and practices in this field.

All presentations have a maximum length of 8 minutes, followed by 4 minutes of discussion.
